Technical Skills

Frontend: JavaScript, TypeScript, HTML/CSS, React Js, Vue Js, Framer Motion, Next Js, Nuxt Js, React Native, Tailwind CSS
Backend : Node Js, Express Js, JWT, Appwrite, trpc
Databases and Tool's: MongoDb, PostgreSQL, prisma, Zustand, Pinia, Redux Toolkit, Git

Experience

Edvanta Technologies   **September 2024 – Present**
Associate Fullstack Developer   *Noida, India*
- Developed a scalable web application using Vue.js and Express.js, implementing seamless frontend-backend integration and robust security measures
- Collaborated with designers and QA engineers to deliver high-quality web pages and components, enhancing overall user experience
- Actively participated in code reviews and optimization efforts, contributing to improved code quality and application performance

PrudentBit   **January 2024 – August 2024**
Frontend Engineer   *Noida, India*
- Frontend developer at PrudentBit, with a demonstrated ability to seamlessly translate Figma designs into dynamic and responsive websites.
- Utilize Next.js, TypeScript, and Tailwind CSS to create intuitive interfaces that adapt seamlessly across devices and screen sizes.
- Committed to delivering high-quality, visually appealing web solutions that align closely with client objectives and industry standards.

Personal Projects

Buddy AI │ *Next.js | Typescript | Openai Api | Trpc | Better Auth | polar*   **Link**
- AI Meeting Platform – meeting application built with Next.js 15, TypeScript, PostgreSQL (Neon), and tRPC
- Integrated video calling & real-time chat using Stream APIs with secure OAuth authentication.
- Developed AI-powered meeting assistants with OpenAI for live support, summaries, and recommendations.

Not Just a youtube clone │ *Next.js | Typescript | Openai Api | Trpc | Clerk*   **Link**
- Full-stack video streaming platform built with Next.js, TypeScript, PostgreSQL (Drizzle ORM), and tRPC.
- Implemented video upload & streaming with Mux, authentication with Clerk, and real-time updates
- Added features like subscriptions, playlists, comments, reactions, and search for a YouTube-like experience with AI-powered thumbnail, title, and description generation using Google Gemini and Open AI

CinemaVerse │ *JavaScript | React | Redux-Toolkit | SCSS | TMDB API*   **Link**
- CinemaVerse: A React and Redux Toolkit powered movies website. Utilizes TMDb API to fetch movie data.
- Features user-friendly interface with trending movies and details on homepage.
- Provides movie info, videos, and responsive design for an immersive cinephile experience.

Storex │ *TypeScript | Next Js 15 | Express Js | Tailwind CSS | MongoDb | JWT | Shadcn | Cloudinary*   **Link**
- Built a full-stack ecommerce platform using Next.js 15, Express.js with TS, Zustand, JWT and Shadcn.
- Designed a MongoDB backend with RESTful APIs for product and user data management.
- Integrated Cloudinary for streamlined product image storage.

Education

Sharda University   **July 2020 – July 2024**
B.Tech Computer Science and Engineering(AI and ML) • 8.1 CGPA   *Greater Noida, Uttar Pradesh*
Nav Jeevan Mission School   **2020**
CBSE, 12th PCM • 76.8%   *Deoria, Uttar Pradesh*
SARASWATI VIDYA MANDIR   **2018**
CBSE, 10th • 85%   *Deoria, Uttar Pradesh*
